

## Mounting your new birdhouse

### Pylex 13048 44 Post Base, Black

Brand: Pylex

438 ratings

Several options will work. I found this post base that fits over a 4x4 post works very well. These are available on Amazon.

Another option would be to check the big box home stores for products to mount a mailbox. The one is more rectangular and also fits over a 4x4 post. Would work very well also.
